The screenshot shows the Selenium IDE interface running in a browser window. On the left, there's a sidebar titled 'Selenium Projects' with a table listing test cases. The first few rows are:

Command	Target	Value
1. open	/	
2. click at	Env+Projects	62,16
3. click at	Env+Selenium WebDriver	101,8
4. click at	Env+Projects	49,14
5. click at	Env+Selenium IDE	82,4
6. click at	Env+Browser Automation	182,39

Below this, there's a command input field with 'open' selected and a target field with '/'. At the bottom, it shows 'Runs: 1' and 'Failures: 0'. To the right, a browser window displays the SeleniumHQ website with a large green checkmark icon.
